Want to foster a love of learning at home?

Tip #9: Be Inquisitive & Encourage Questions

## TIP #9 Be Inquisitive & Encourage Questions

Be curious about your children. Ask open-ended questions about experiences, emotions, activities, preferences, etc. When you offer a choice, ask your child to explain the rationale for his or her answer. When you complete an activity, ask your child what they liked or did not like about the activity. When you make plans, engage your child in the planning process and talk about the steps that need to be taken and why. Engaging in conversation & sharing thought processes helps promote strategizing & critical thinking.

**Who says learning can't be fun?**

**Here are some great ways to promote curiosity & inquisitive thought at home:**

### \*\*\* Questions during play:

Ask questions about how your child solved a problem. For example,

- \* "What do you think made the brick tower fall down?"
- \* "Is there another way (or a better way) we can do it?"
- \* "What could you do differently to run the race faster?"

Talk about strategies and the process for making decisions and altering processes to achieve different outcomes.

**LearningMadeFunWithMaestraCasiano.com** has tons of tools to promote self-care & self-discovery including Yoga books, kits, cards, & more

Find the purrrfect gifts for your special someone from paired figures to plush toys; books to collectibles; apparel to jewelry... find it all!
