

Making Local-Global Connections

Learning About Self and Others: Mirrors, Windows, and DOORS

CONNECT your favorite activities with similar experiences you believe others around the world might have. What are your favorite things to do and why do you enjoy these experiences?

CREATE a sketch of yourself doing a favorite activity.

SKETCH HERE.

PRESENT your sketch and discuss the ways others around the world might do this or a similar activity. Use your investigation skills to learn more about foods, homes, schools, and play in other countries.

RESPOND to some of the things you learned about other cultures and countries. What is similar about the way people live, what they eat, and how children play around the world? Sketch pictures that show experiences that are similar and different in various places around the world.
