## SHOP VACATION & TRAVEL ITEMS

- Books about places
- Travel blankets & neck pillows
- Toiletry bags & first aid kits

## TIP #14 Facilitate S.T.E.M. Exploration at Home

S.T.E.M. is an acronym for **s**cience, **t**echnology, **e**ngineering & **m**ath. Often, you also see an "A" in to make S.T.E.A.M. The "A" is for **a**rt. Together, these disciplines offer opportunities for children to address their innate curiosity by using hands-on interactions with the world around them for discovery & exploration. With modern times full of rapid technological advancements & a constant need for innovation, fostering a love for & understanding of S.T.E.M. concepts & principles is critical.

S.T.E.M. activities are naturally appealing to children who love to learn by doing & engaging their senses. S.T.E.M. offers interactive & immersive opportunities to learn. Whether constructing a simple building block structure, conducting an experiment with household items, or participating in one of Maestra Casiano's numerous recommendations for S.T.E.M. learning each month, children use their curious nature to experiment & generate questions about how the world works.

### Your Kids Will Love These Summer S.T.E.M. Experiments:

- \* Solar Oven S'mores
- \* Rainbow in a Jar
- \* Acid Base Volcano
- \* Egg in a Bottle
- \* Ice Cream in a Bag
- \* Homemade Lava Lamp

### Benefits of Encouraging S.T.E.M. Exploration at Home

- Stimulates & Nurtures Curiosity
- Enables Hands-On Learning Opportunities
- Develops Problem-Solving Skills
- Provides for Real-World Application & Relevance
- Fosters Independence & Self-Driven Learning
- Ignites a Lifelong Passion for Learning
- Cultivates Critical Thinking (Bloom's Taxonomy)

Hands-on learning experiences help children experience education at a level beyond what is provided in the traditional classroom. With "Do It Yourself" (DIY) S.T.E.M. projects, children can witness complex concepts in action & develop a deeper understanding of how things work. In addition, they generate more curiosity to seek out additional opportunities.

Visit Maestra Casiano's [July Monthly Activities Page](#) to learn more about the benefits of S.T.E.M. & access free family resources to explore learning opportunities outside of the classroom including games, activities, printables & other *fun*-tastic learning tools

Want to foster a love of learning at home?
